

The new filter cartridge

for tank fill coffee machines with integrated water tank

■ aquaAROMA ■ CREMA

- coffee aroma unprecedented
- easy to retrofit
- easy usage and exchange

BRITA® water

directly from the water tank

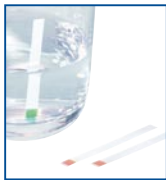

▪ aquaAROMA CREMA ▪

Water running through your valuable machines should be the best quality. Though good drinking water is provided countrywide it can lead to limescale deposits or contain substances that influence taste and odour in a negative way. Therefore carbonate hardness and other impurities should be reduced.

Your advantages with BRITA AquaAroma CREMA:

- water quality can be adjusted by use of the flavour setting – according to local water quality
- reduced service costs
- improved taste, aroma and crema
- constant water pressure and temperature during complete time of brewing
- use directly in the water tank - also horizontally
- fresh filtration for every single cup
- simple assembly without tools

Typical capacity			
Taking account of the local carbonate hardness			
Adjustment flavour setting	Capacity	Cups	
		35 ml	150 ml
Level A	220 litres	6300	1470
Level B	150 litres	4300	1000
Level C	80 litres	2300	540

The capacity of the filter can be adapted to the local water conditions by means of the flavour setting. For defining the right adjustment for the respective hardness, indicator strips will be delivered with every cartridge.

The AquaQuell Technology

Specifically reduces the carbonate hardness in the water, preventing scale deposits. Unwanted smells and flavours that impair the aroma and the attractiveness of drinks are removed. Furthermore, the filter safely retains any coarse and fine particles in the water.

AquaAroma CREMA filter cartridges are suitable for the use in coffee machines with specially designed integrated water tank systems. For fixing the cartridge into the tank no additional bracket holder is necessary.

Certified BRITA quality

The food quality of BRITA water filter products has been inspected and confirmed by an independent institute.

That is safety for you – signed and sealed!
